

### III REMARKS

This is a preliminary amendment of a divisional application under 35 CFR 1.60, filed concurrently herewith of the following pending prior application:

Salvucci, et al.

Serial No. 09/967,291

Filed: 9/27/2001

Title: Real-Time Incident And Response Information Messaging In A System For The Automatic Notification That An Emergency Call Has Occurred From A Wireline Or Wireless Device

In the prior application the Examiner restricted claims 1-28 to one of the following inventions:

I. Claims 1-25, drawn to an emergency notification system and method using the telephone network.

II. Claims 26-28, drawn to a wireless emergency system.

Since a response to the requirement of restriction in the prior application was filed on 10/14/2003 electing Group I claims, copendency is established between this divisional application and the parent application.

Claims 1-25 are being cancelled, original claims 26-29 retained and new claims 30-50 added for prosecution in this the divisional application. Examination and allowance of claims 26-50 is respectfully requested.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Owen L. Lamb", written over a horizontal line.
